Coaching is a powerful and collaborative engagement between a coach and an individual which results in new thinking and positive change. The process of coaching empowers an individual to make changes they may not have been able to visualise or actualise on their own. Great coaching is when you feel trust, curiosity, energy and excitement. People come to coaching for different reasons; some are looking to find their sparkle again and others are determined to make positive change. We all have answers within us; coaching helps us to uncover these.

Known as the 'Simplicity Coach', our onsite coach Emma works with people to help them uncover what 'Simplicity' could mean for them in their home and professional lives. She is passionate about empowering people to live more consciously. Emma is a qualified Life & Executive Coach with over twenty years leadership experience in different companies, countries and continents. If you are ready to roll up your sleeves with Emma, Owner & Founder, contact us on 01-6278498 for a complimentary initial coaching session.
